Product Description

You want to have a clean cut when cutting cables to length? No problem with the cable cutter pliers from Wiha. They provide clean, smooth cutting to length of copper and aluminum cables without crushing, as well as the option of stripping and skinning. Its opening spring can be switched on and off, which allows the user to work effortlessly for long periods of time. The ergonomically shaped plier handle also ensures comfortable, fatigue-proof work. The high-quality chrome-plated plier surface additionally provides protection against rust, ensuring the pliers have a long service life. The cutting edges that are inductively hardened to approx. 64 HRC and the high-quality C 70 tool steel contribute to a long tool life. The insulated cable cutter pliers are subject to routine testing as per the international IEC 60900 standard, thus ensuring safe work on live parts up to 1,000 V AC.

Product dimensions

230 x 100 x 28 mm (LxWxD)

Standards

Manufactured acc. to IEC 60900.

Note

VDE and GS tested

Application

For cutting copper and aluminum cables without crushing. Suitable for working on live parts up to 1,000 V AC.
